## We want to celebrate.

In 2019 we are celebrating our 50th anniversary. During these years, starting from 1969 till today, we achieved to establish the company RUF Maschinenbau GmbH & Co.KG as the leading manufacturer of Briquetting Systems worldwide. Our thanks go out to all employees, business partners, companions and friends who have a big share on this success.

Due to this, we will be celebrating this anniversary from **4th to 6th of July.**

During these days we will have several events. You will have the opportunity to get information about our company, participate in a company tour and, of course, catering. You can find the summarized details in your personal covering letter.

We would be glad to welcome you during our anniversary.
